

Greetings Earthling

My name is Zargon and I am from the Planet Mok. I have heard about Earth from Spaceman Spiff and I have come to learn more about your planet.

My mission is peaceful and I have come to make friends. Will you be my friend?

I would like to learn more about your planet and have many questions. Can we become pen pals?

I see some creatures eat grass and others hunt. Can you tell me what you earthlings like to eat?

Please respond by putting your message back in my message pod and return it where you found it. I will beam it back to my ship at night.

Live long and prosper.

From,  
Zargon
